~~SECRET~~ NOFORN-SKEET CHANNELS ONLYPROJECT SUN STREAK (U)WARNING NOTICE: INTELLIGENCE SOURCES AND METHODS INVOLVED

## CRV Session Procedures Report (S/NF/SK)

Control Number : 8704  
Date of Session : 19Mar87  
Date of Report : 20Mar87  
Source Identifier: 021

1. (S/NF/SK) Tasking: See original tasking data sheet, attached.  
No further instructions received.

2. (S/NF/SK) Session: Several source inclemencies. Although these did not appear to be serious, monitor (suspecting a possible "story line" coming on) decided to "throw source a curve", to wit, begin session in S4, then pursue a circuitous route to the target, continuously keeping source off guard. Although this technique wasted valuable session time up front (in the absence of S1, monitor caught himself off guard trying to figure out where we were), the session did accomplish its objective--more target indicators were produced.

3. (S/NF/SK) Summary: Site is an open, barren area "in the middle of nowhere". Very strong perception of heavy construction activity and preparation--unoccupied, but ready to be used when/if needed. There are two types of manmade structures on the site: one type is flat-topped, the other has a curved surface on a flat surface. There is a radiating, emerald green associated with the area. (A bright flash may be related in some way). [Note: Source experienced much difficulty in attempting to objectify the concept of this pervading, ubiquitous "green"--light was the only (possibly correct) word-idea available]. Monitor induced source AI by placing her "in the green": Source perceived the green going right through her, producing an "invaded, weakening, dissolving, draining, light-headed, disorienting feeling" (AOL-like a "CAT scan").

4. (S/NF/SK) Feedback: (Post session) Monitor instructed source to write down any more data that she might become aware of with regard to the "green".

Future Activity

52 D AE ES T I ADL A/S

Area is very thick — away from civilization.  
 Ground in Area is ADL like grassfront.  
 There is a man-made group of structures on  
 the site. There are two types of structures —  
 one type is flat-topped, the other has a  
 curved structure on a flat surface. There  
 is only one access to the Area. There is a  
 roadster/gun associated with the area —  
 clear, distinct, stolen, tasteless, intangible.  
 The area has an un-occupied feel to it ADL-like  
 it's been built. and it's standing there ready  
 to be used if needed.

At first - I wouldn't want to be caught in  
 the middle. I would feel when in the  
 middle of the light - turning. It is  
 going right there. Weakening. Dissolving  
 feeling. Drawing - light headed.  
 Dissolving.

United. Short-term effect. Nothing  
 permanently disabling.

At first -  
 like I  
 can see.
